Chebbah Mohamed Amine

aminoschabbeh12345@gmail.com   +216 50537925

As a software engineer and UI/UX enthusiast, I possess technical expertise in programming languages like Java, Python, and JavaScript, and am skilled in using design software like Adobe Creative Suite, Sketch, and Figma. With experience in conducting user research, creating wireframes and prototypes, and working closely with developers, I can bring a unique perspective to any project and create innovative, user-friendly products that meet both technical and design requirements.

Education and Qualifications

- **2nd year Software Engineering Student** (Higher Institute of Applied Sciences and Technology of Sousse)   Sep 2021 – Present

  We study software design, development, testing, and maintenance. We learn programming languages, project management, and software quality. Our goal is to create efficient, scalable, and maintainable software products that meet user needs.
